Subject: RE: CERCLIS database run, 9/25/13 - active sites list for WA state
Attachments: Info for EPA.xlsx

Monica:

I know you're not there during the "shutdown/slowdown/slimdown" that's going on, but attached is an Excel spreadsheet with the status indicated. Unfortunately, I was unable to find many of the sites; some due to misspellings, others do to spelling and naming inconsistencies. For those where "Not Found" is found, additions or name changes could help me get more information for you.

I hope you (when you read this) took advantage of the shutdown. Something like Kaua'i, or maybe the Cook Islands.

Ted

Subject: CERCLIS database run, 9/25/13 - active sites list for WA state
Importance: High

Hi Ted-

In follow-up to my voice mail message, please find attached the active sites list for WA state. It includes a number of sites listed under the category "Other Cleanup Activity: State-Lead Cleanup". EPA would greatly appreciate an update from Ecology on the "OCA State Lead" sites that are listed on the attachment. Feel free to submit the update information to EPA at one time or submit them (site-specific updates) individually. Whatever is easiest for you is fine with us.

Thank you for your time and if you have any questions, please contact me at (206) 553-0323.
